2012 WaterSmart Innovations
Hunter Industries and Ewing Irrigation Products
Scholarship Application

Scholarships of up to $350 now available!

Hunter Industries and Ewing Irrigation realize what an important event this is for anyone involved in the water and irrigation industry. Thus, we are offering special-needs scholarships to employees of water agencies and/ or irrigation instructors who might not otherwise attend.

Registration is now open for the 5th annual **WaterSmart Innovations Conference and Exposition** (WSI), slated for **October 3-5, 2012** at the South Point Hotel and Conference Center in Las Vegas.

To further support this effort, WSI is working with Ewing and Hunter by offering scholarship recipients a $60 discount code for online registration. This allows scholarship recipients to receive up to $410 in cost reductions.

Last year's WSI conference and exposition drew nearly 1,100 participants from 40 states and 10 nations. WSI 2011 featured more than 130 professional sessions and an exposition of innovative water efficiency products and services with 100 exhibitors.

The Southern Nevada Water Authority is presenting WSI 2012 in partnership with the Alliance for Water Efficiency, American Water Works Association, Audubon International, California Urban Water Conservation Council, the U.S. EPA's WaterSense Program, Green Plumbers USA, International Association of Plumbing and Mechanical Officials, International Center for Water Technology, International Code Council and Irrigation Association.

APPLICATION DEADLINE: Friday, August 31, 2012

Ewing and Hunter want to help as many water purveyors and irrigation/water management instructors as possible attend this event and are offering partial scholarships to assist a limited number of people. Preference will be given to those whose organization will contribute partially to the applicant's expenses. The maximum amount of grant funds will be limited to $350.00 per agency/school/person. Scholarships will be awarded on a first-come, first-served basis, along with a thorough review.

Scholarship Criteria

In addition to this form, the following information is required of all applicants:

- A letter of support from the applicant's supervisor or department head.
- One page description of how you'll use the irrigation education toward conservation and teaching efforts.

Name _____

Title _____

Email _____

Phone _____

Agency/School Name and Address

_____

_____

_____

_____

Applicant's Immediate Supervisor or Department Head
